Dürr: New Electronic Control

As a competent manufacturer of low-noise, oil-free compressors, Dürr Technik enjoys an excellent reputation in the beverage market. For many years, Dürr's products have ensured reliable operation wherever drinks are served in larger quantities.

Dürr will introduce its new product: the electronic controlling and monitoring unit Dürr Tronic for Dürr compressor stations with which Dürr Technik is aiming to set a milestone towards digitalization. The electronic control unit in combination with a compressor station can be integrated in larger controlling and monitoring systems which guarantees a smooth operation.

Misa: Branding solutions right at the tap

Misa specializes in branding solutions at the dispensing point, custom-made products of any kind and the development of innovative technical components in the dispensing sector.

Misa will present two new products at the BrauBeviale:

- GovReg, the inline pressure regulator made of stainless steel, highly configurable (CO₂, Argon, O₂, N₂O, N₂, mixed gas). It can be installed inline or directly onto the keg coupler, it is particularly small and robust, the setting is tamper-proof and, moreover, the pressure output is constantly the same.
- Taptube, the first glass beer tap system.

The beer passes through a glass spiral inside the column, natural light reflects the color of the beverage. In line with this, a new range of glass tap handles with embedded brewing ingredients has been developed.

Peki: Event vehicles

Peki is a one-stop shopping partner of the brewing and beverage industry for vehicles and systems for events with customers in over 60 countries on six continents.

It displays the modified model year 2019 bar trailer type 4500/8 k octagonal with walk-in cold storage. The 4.5m long one-axle vehicle is meant to combine spacious working and draft area with a large cold store for 28 to 50-liter kegs. Peki presents the bar trailer in a target group orientated truss stage design with color changing LED system. Also available as type 4500/8 without cold storage and with an arched roof. Besides that, Peki displays other bar and event trailers for different kinds of events.
